A Report on

Botanical Field Visit

At

Krishi Vigyan Kendra Babhaleshwar

Department of Botany

Arts Sciences and commerce College Kolhar

April 2022

As per the Savitribai Phule Pune University syllabus, Department of Botany organized Field visit at Krishi Vigyan Kendra Babhaleshwar on 11.4.2022. FYBSC and SYBSC 31 Students were accompanied with Dr. A. A. Aher and Ms. Kotkar S. A. Botany faculty members. During the visit, first students were taken to a Lecture hall, where they attended the Lecture of Dr. Bhosale sir about KVK Organization and working, Different schemes for farmers, training Programs available at institute. After that student visited different laboratories of KVK like Soil and Water analysis, Biofertilizer unit, Biocontrol Unit, Tissue culture laboratory, *Spirulina* Unit, and Plant Nursery.

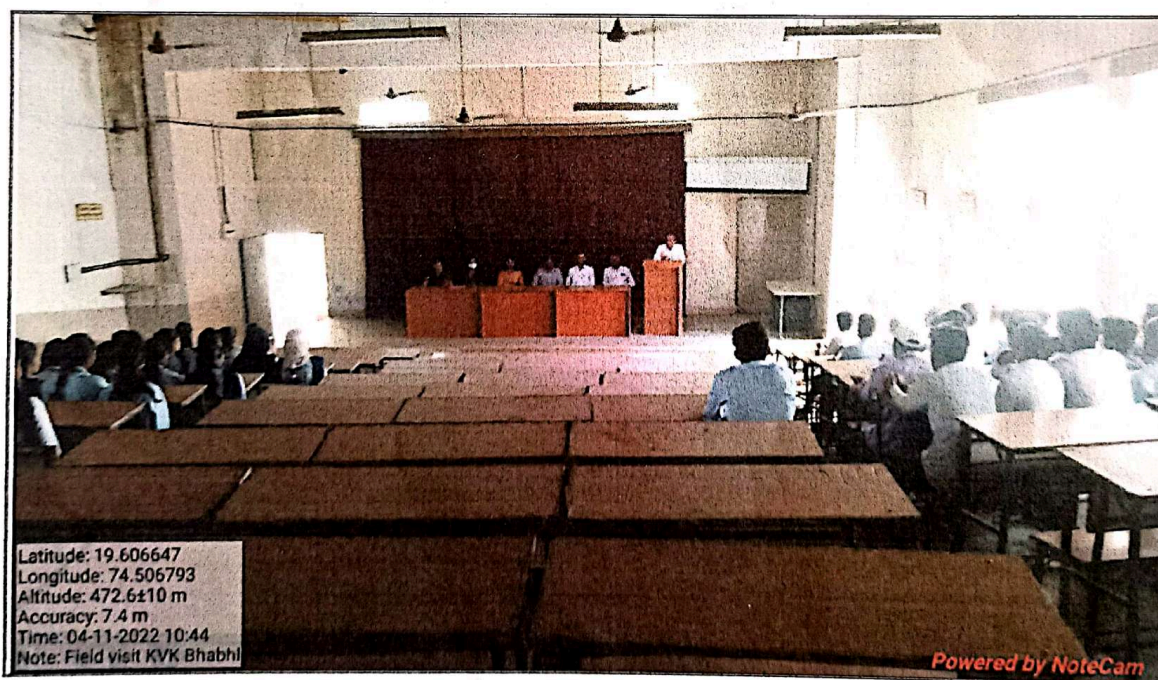

From this visit students gain knowledge about soil and water analysis techniques, different equipments used for the analysis, Various methods of biocontrols, different methods of plant propagation various variety of fruit, vegetable plants in nursery.

Our students visited Chemistry, Microbiology, Phyto-chemistry, Plant Tissue-culture and Molecular Biology laboratories which are well equipped. Young scientists who were doing research in the institute displayed their work in the form of models, charts and also some experiments. Our students visited various labs and understood the research going on. Our main aim was to know about *Spirulina* Cultivation technique, Tissue Culture Laboratory, Molecular biology techniques related to degree syllabus. So our students visited all the Biological science departments and gained knowledge about respective

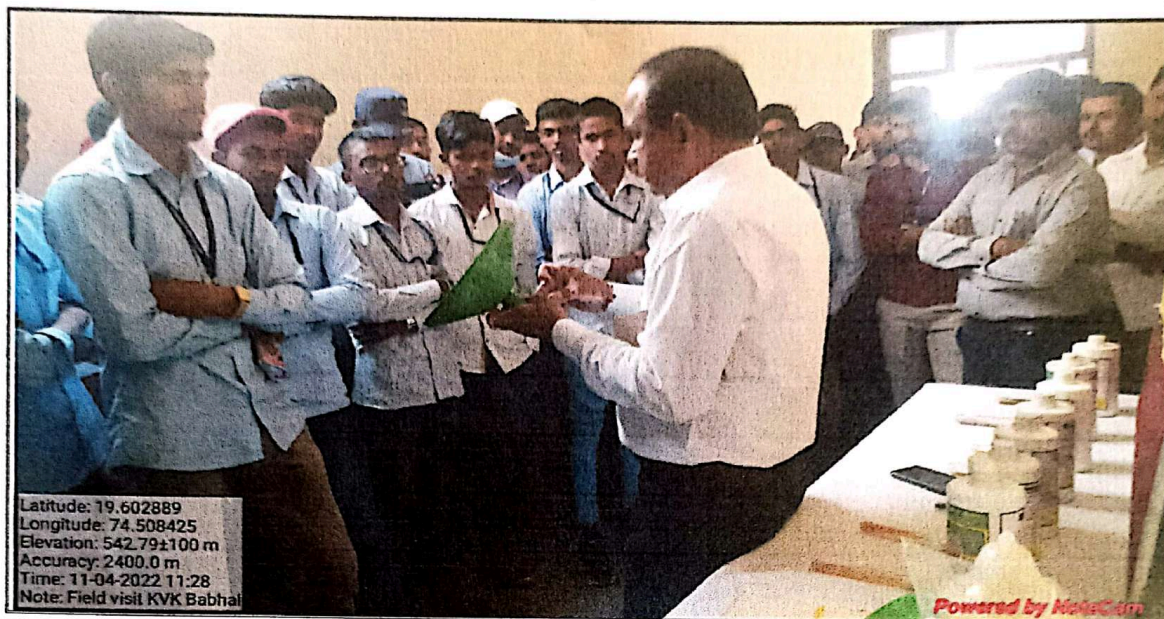

subjects. Students also studied plant protection methods, Plant Nursery Management.

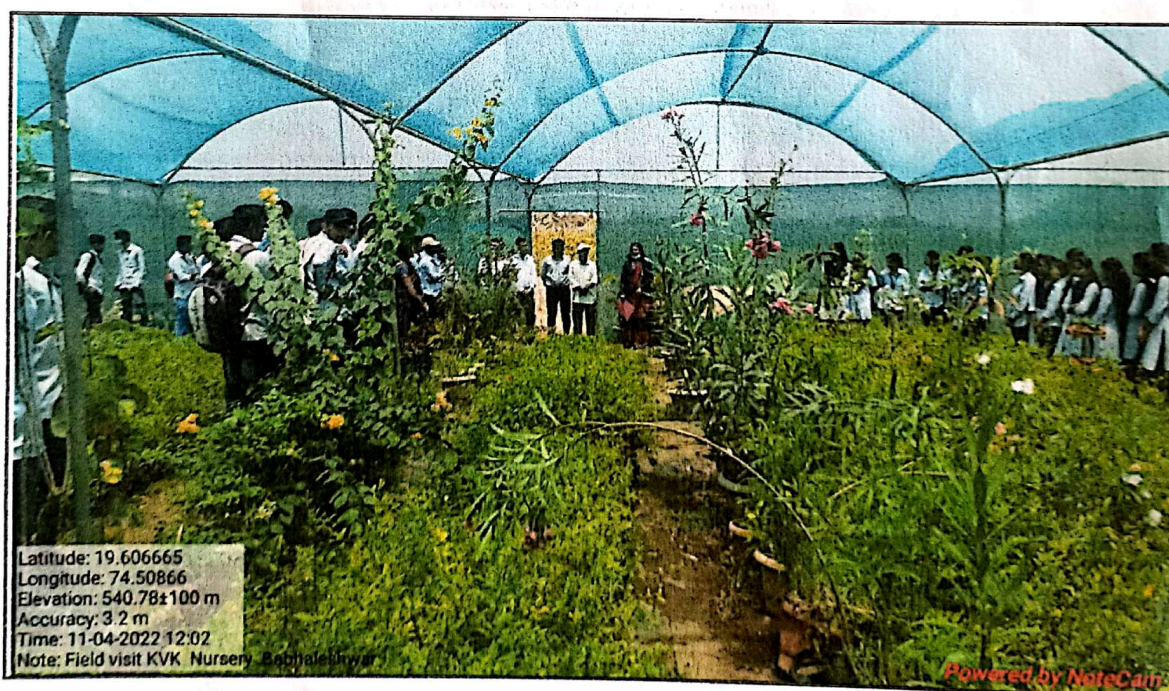

KVK Babhaleshwar Visit

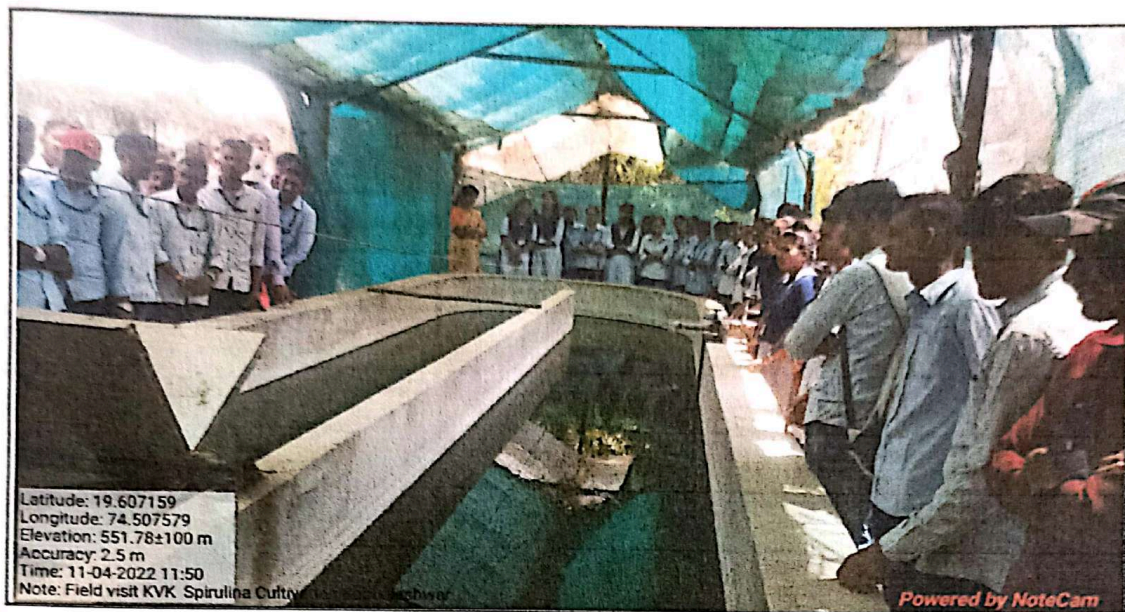

KVK Visit: KVK Scientist delivers a lecture on working of KVK.

KVK Visit: Biocontrol Unit

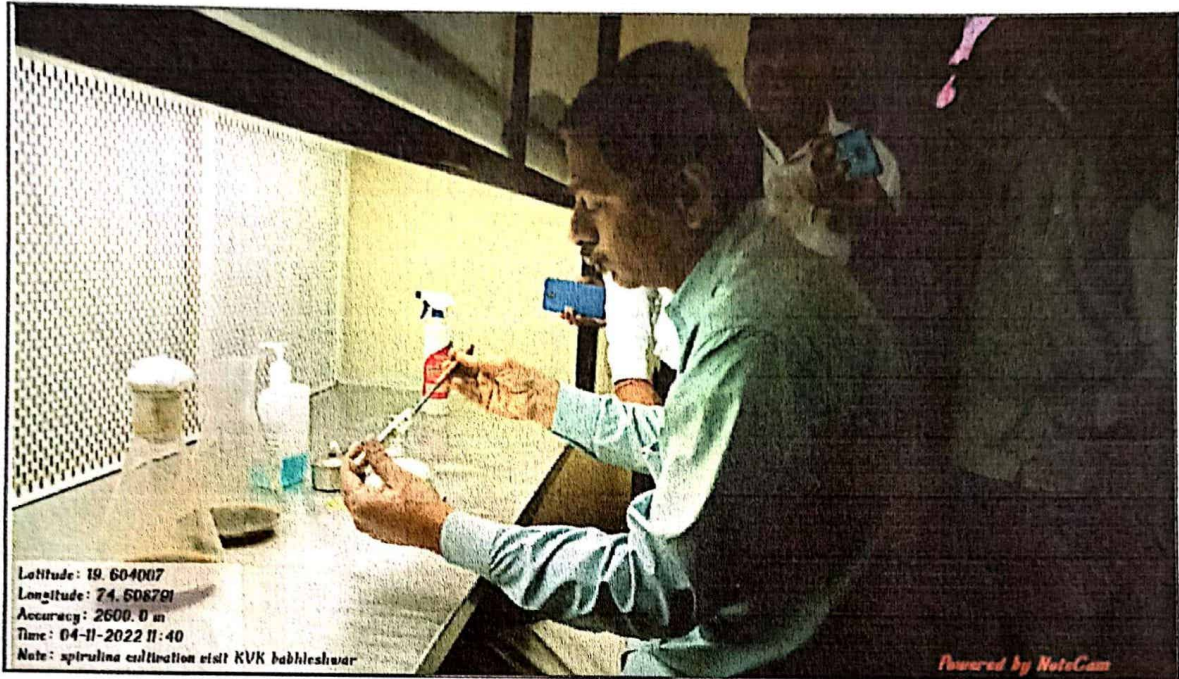

KVK Visit: Plant Nursery

SERVICE AGREEMENT

This Service Agreement (hereinafter referred to as "Agreement") is made at Aurangabad on 28/01/2022 for the Student & Faculty Development Programme (hereinafter referred to as "Programme"), between

SHODH Advantech LLP, a limited liability partnership company incorporated under the Section 12(1)(b) of the LLP Act, 2008 and having its works office at C-36/2, Opp. Lupin Ltd., Chikalthana MIDC, Aurangabad, Maharashtra - 431007 (hereinafter referred to as "**SHODH**") which expression shall unless repugnant to the context or meaning thereof be deemed to include its successors, legal representatives and assigns) of the One Part.

AND

Department of Chemistry, Arts, Science and Commerce College, Kolhar, Tal.- Rahata, Dist.- Ahmednagar, Maharashtra, INDIA. (hereinafter referred to as "**Institute**") which expression shall mean and include all its administrators, assignees, agents, successors and legal representatives) of the Other Part. Students enrolled and studying various courses with the "**Institute**", hereinafter will be referred to as "**Student**".

SHODH Advantech LLP, Aurangabad, INDIA and Department of Chemistry, Arts, Science and Commerce College, Kolhar, Tal.- Rahata, Dist.- Ahmednagar, Maharashtra, INDIA Affiliated to **Savitribai Phule Pune University, Pune- Affiliated University** in INDIA hereby agree to promote the academic exchange and the research cooperation between the two parties.

Aims and Objectives of proposed MoU:

1. To excel in acquisition of knowledge and its dissemination.
2. To share human resources/expertise and skills.
3. To share infrastructure for mutual growth and progress.
4. To promote capacity building among Students and Faculties.
5. To promote scientific temperament among the students and community.
6. To involve in outreach activities for the benefit of the society.
7. To share the research activity and research trainings.
8. To develop and generate employability in students and offer opportunities.

Area of Interest:

1. Faculty Development by mutual sharing of academic expertise and joint research programs.
2. Capacity building among students of this college by completing add-on courses conducted by SHODH to improve employability quotient.
3. Visits to specialized Analytical Laboratory of SHODH by students of this college for acquisition of knowledge and promotion of awareness and scientific temperament.

1. Mutual Sharing of Academic Expertise:

1. Need-based faculty sharing for delivering lectures on special topics on some mutually agreed minimum remuneration.

This college can make available specialized faculty from pure sciences for teaching and syllabi framing or literature writing.

3. SHODH staff can deliver talk to college students at post graduate and under graduate level and to students registered for research.

2. Faculty Development:

1. Research: Access to faculty members of the college to SHODH Library.
2. Permission to faculty members of the college to use SHODH's laboratory instruments for analysis on payment of fees (to cover recurring expenses).
3. Collaborative work on research projects particularly concerning the needs of the society.
4. Joint research programs between SHODH and College faculty.
5. Collaborative work to identify soil and water parameters for its quality.
6. Student registering for Ph.D. can be jointly guided by faculty from SHODH and the College.

3. Capacity Building among Students:

1. Employability Development: Conducting short term special courses like Water Analysis, Chemical Analysis of Drugs and Drug Intermediates and Instrumentation in Chemical Analysis for the college students by SHODH on mutually agreed minimum fees.
2. Permission by SHODH to allow visit of students to Analytical Laboratory for awareness and promotion of interest.
3. SHODH faculty can extend technical expertise for setting up of laboratories for Analytical Chemistry.

4. Scientific Temperament and Awareness:

1. SHODH and the College can jointly organize programs for students on career opportunities in Science and Technology.
2. Jointly organizing camps for jobs to students from these two institutions.

This MoU will give an impetus to faculty development and will immensely benefit the students in their capacity building along with collaborative Research activities with far reaching results. The MoU will provide both the parties to fulfill their social obligations through the outreach activities.

This agreement shall be effective for the period of two (2) years from 28/01/2022 to 28/01/2024. Any renewal of revision or termination of the agreement shall be discussed by the representatives of both parties two months prior to the end of the current period; otherwise it will be automatically renewed for the additional two (2) years period thereon.

The broad term for the gear and equipment used in the manufacturing of chemicals is "chemical machinery and equipment." Chemical production to the processing of raw materials into a specific specifications of the finished product, frequently require after pre-processing of raw materials processing, chemical reaction and separation of the reaction products and refining a series of chemical process to achieve the process of mechanical, are frequently categorised as chemical machinery.

Principal category:

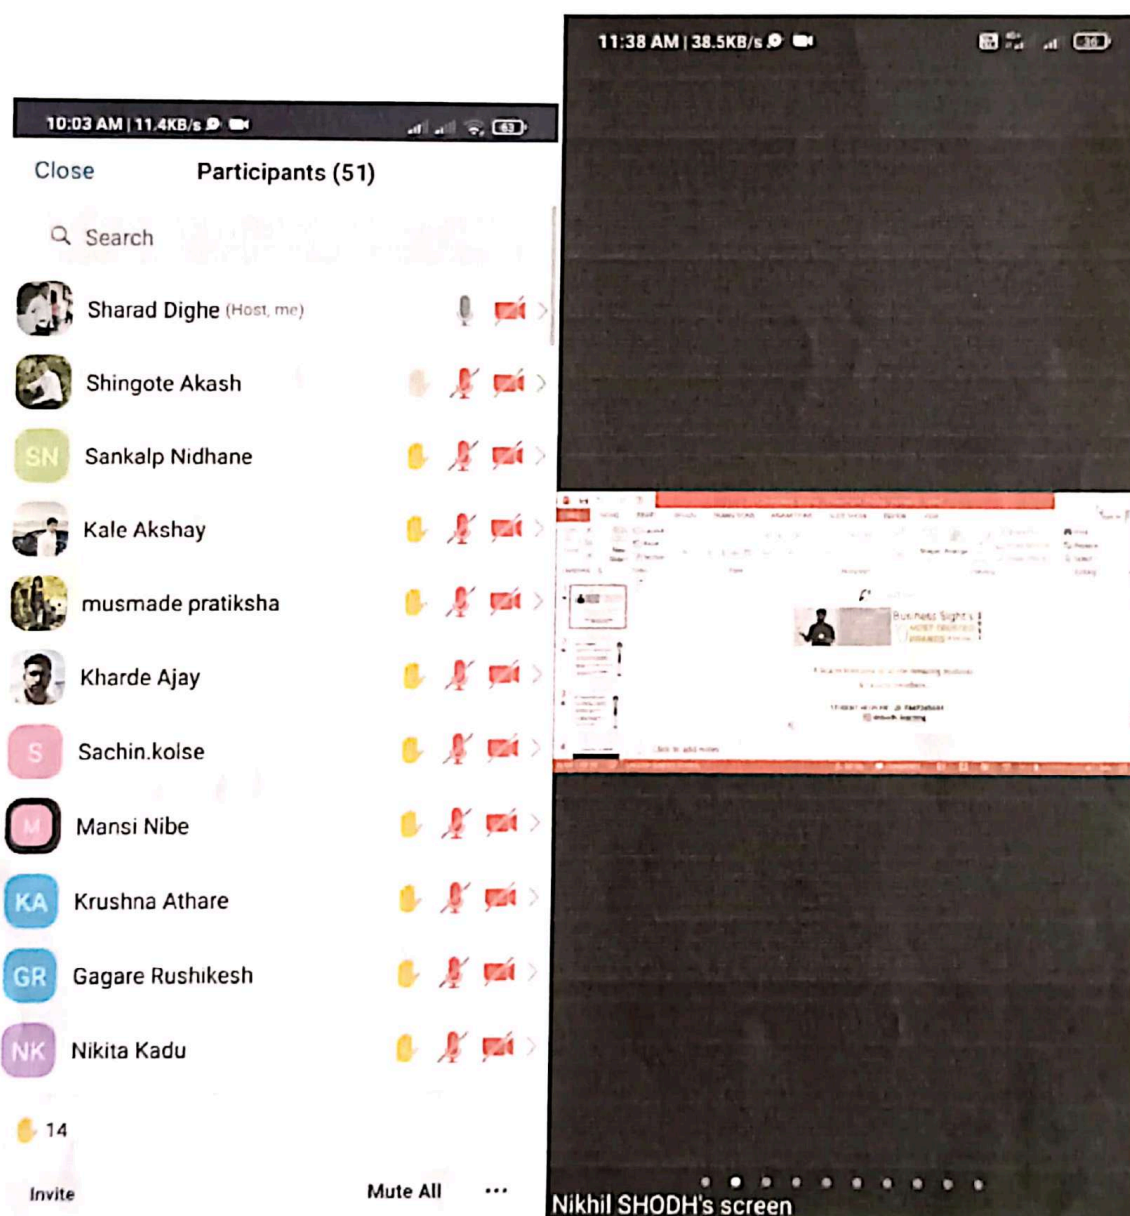

Chemical equipment refers to the major components that move mechanically, such as various types of filters, crushing equipment, centrifugal separators, rotary kilns, mixers, rotary dryers, and equipment for moving fluid. Chemical apparatus. refers to machinery whose primary parts are either stationary or only minimally mobile, such as different vessels (tanks, tanks, vessels, etc.), standard kilns, towers, reactors, change heat exchangers, standard dryers, evaporators, reactors, electrolysis, mass transfer equipment, adsorption equipment, fluidization equipment, standard separation equipment, and ion exchange equipment. Chemical machinery is not strictly categorised; some fluid conveying equipment (such as pumps, blowers, and compressors, etc.) used in the chemical industry is frequently referred to as chemical machinery, but it also includes a wide range of general machinery used in industrial production. The progress of chemical technology and chemical engineering is strongly tied to the design and manufacture of modern chemical machinery, which also depends on advances in mechanical engineering and materials engineering. Chemical machinery focuses mostly on the spectrum of electrochemical as well as the corrosion resistance of machinery, etc.

Chemical machinery, which differs from other machinery in important ways, is a necessary component of the production equipment used in chemical plants.

- (1) There are many different types of energy forms, and the transformation process is more complicated. Thermal energy, mechanical energy, chemical energy, electromagnetic energy, and other types of energy are the most prevalent types of energy;
- (2) The characteristics of the refrigerant vary, including composition, composition, phase changing, etc.;
- (3) the operational parameters, which can include high and low pressure, low speed, high and

low temperature, high and low viscosity, etc., are quite diverse;

(4) The characteristics of various chemical properties' requirements. Thus, the unique structure of the ever-changing chemical machinery and equipment is formed. Chemical machinery and equipment are often classified into two categories. Chemical machinery, such as heat exchangers, towers, reactors, and other different types of containers. The primary parts are often constant. or just a quick workout. Machinery for the chemical industry, such as centrifuges, filters, crushers, rotary kilns, and rotary dryers. Regular motion is the main element, as is the unique pump, compressor, transport, etc.

Report

15 days training program on "Guidance on Analytical methods and Equipment use in Pharma industry" for PG students from our college from Tuesday 01/03/2022 to Tuesday 15/03/2022 on line mode was organized by department of Chemistry in collaboration with Shodh Advnatech LLP in Aurangabad for giving me the opportunity to plan Chemical production to the processing of raw materials into a specific specifications of the finished product, frequently require after pre-processing of raw materials processing, chemical reaction and separation of the reaction products, and refining a series of chemical processes to achieve the process of mechanical, are frequently classified as chemical, or "chemical machinery and equipment."

Principal category:

When we talk about chemical equipment, we're talking about the main parts that move mechanically, like different kinds of filters, crushing equipment, centrifugal separators, rotary kilns, mixers, rotary dryers, and equipment for transporting fluid. chemical equipment refers to machinery, such as different vessels (tanks, tanks, vessels, etc.), standard kilns, towers, reactors, change heat exchangers, standard dryers, evaporators, reactors, electrolysis, mass transfer equipment, adsorption equipment, fluidization equipment, standard separation equipment, and ion exchange equipment, whose main components are either stationary or only minimally mobile. Chemical machinery is not exactly categorised; it encompasses a wide range of conventional machinery used in industrial production as well as some fluid conveying equipment (such as pumps, blowers, and compressors, etc.) used in the chemical industry. The development of contemporary chemical machinery, which also depends on advancements in mechanical engineering and materials engineering, is closely related to the development of chemical technology and chemical engineering. Chemical equipment primarily focuses on the range of electrochemical reactions as well as the machinery's resistance to corrosion, etc.

Chemical plants' production equipment must include chemical machinery, which differs from ordinary machinery in significant ways.

- (1) There are several varieties of energy forms, and the conversion procedure is more difficult. The most common types of energy are thermal energy, mechanical energy, chemical energy, electromagnetic energy, and others;
- (2) The refrigerant has a variety of properties, such as composition, composition, phase change, etc.;
- (3) There are a wide variety of operational characteristics, such as high and low pressure, low speed, high and low temperature, high and low viscosity, etc.;
- (4) The specifications for different chemical properties. As a result, the distinctive structure of the dynamic chemical machinery and equipment is created. Two sorts of chemical apparatus and equipment are frequently used. Heat exchangers, towers, reactors, and various different kinds of containers are examples of chemical equipment. The essential components are frequently consistent. or simply a short workout. such as centrifuges, filters, crushers, rotary kilns, and rotary dryers; machinery for the chemical industry. The primary component is regular motion, which also includes the special pump, compressor, transport, etc.

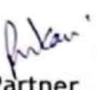

In the 15 days training programme following points were discussed-

- ✓ Introduction to Analytical instruments
- ✓ Safety Instructions for Persons Working in Chemical Laboratory
- ✓ Handling of Reagents and Devices
- ✓ Work with Dangerous Substances
- ✓ Performing of Chemical Experiments
- ✓ Actions in Emergency Cases
- ✓ Laboratory Technique, Materials and Fundamental Operation
- ✓ Cleaning of Laboratory Glassware
- ✓ Warming, Drying, Heating
- ✓ Filtration
- ✓ Measurement
- ✓ Description of the Experiment

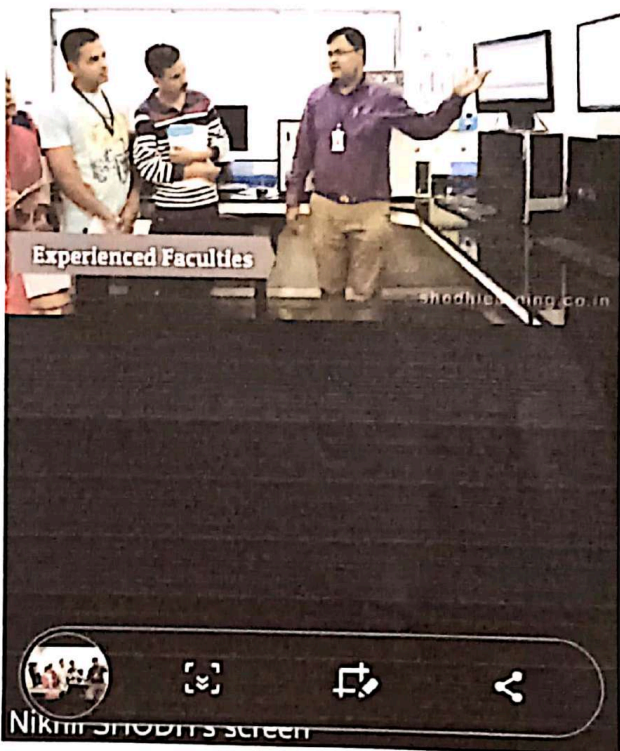

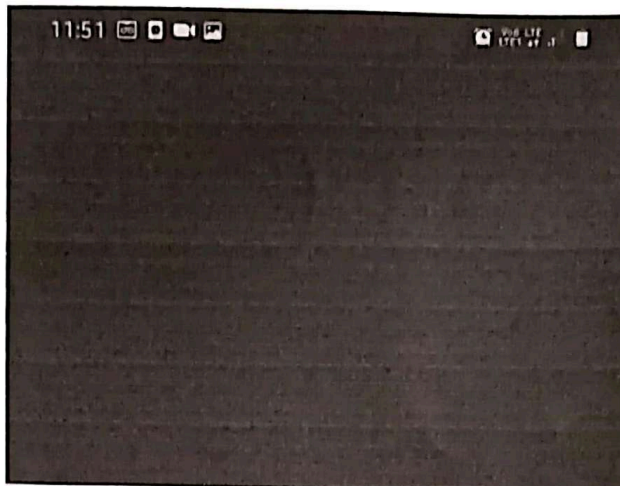

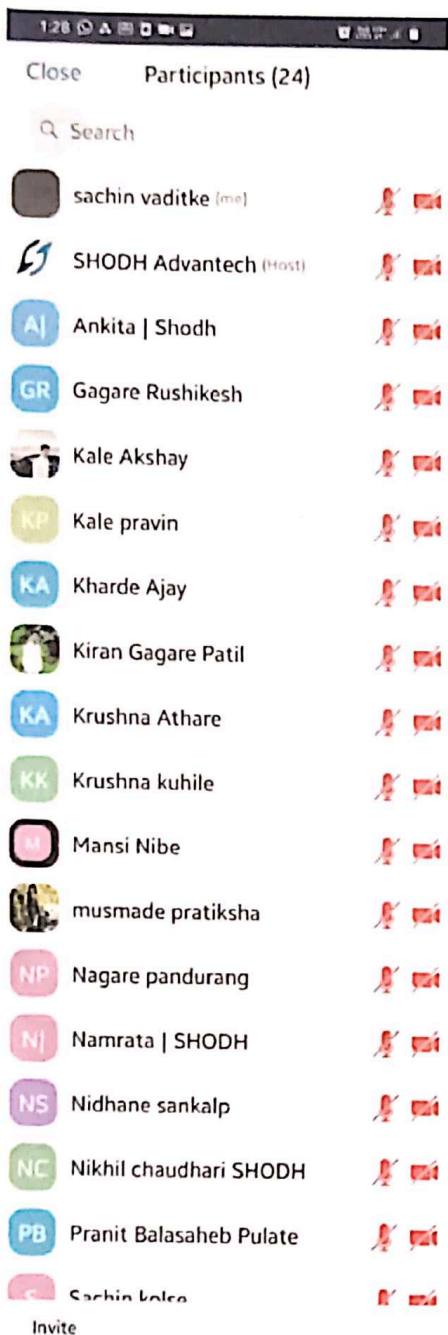

- ✓ Scaling With Analytical Balance
- ✓ Titrimetric (Volumetric) Analysis
- ✓ Volumetric Analysis Solutions
- ✓ Method of Complexometry
- ✓ Determination of Water Hardness
- ✓ Determination of Water Temporary Hardness
- ✓ Determination of Water Total Hardness
- ✓ Methods of Redox Titration
- ✓ Qualitative Analysis
- ✓ Cation Determination
- ✓ Anion Determination
- ✓ Potentiometry
- ✓ Preparation of Buffer Solution
- ✓ Chromatography
- ✓ Spectroscopy

REPORT OF ACTIVITY / PROGRAMME

Topic: MODI LIPI TRAINING PROGRAMME

Date: 24th April, to 30th April, 2022

Time: 11:00 am to 01.00 pm

Venue: ASC College, Kolhar

Organized by:

The Department of Marathi and History of Loknete Dr. Balasaheb Vikhe Patil
Pravara Rural Education Societies Arts, Science and Commerce College, Kolhar

THEME OF THE PROGRAMME: MODI LIPI TRAINING

OBJECTIVES OF THE PROGRAMME:

1. To create awareness about modi language lipi among the students and staffs
2. To make experts of modi script for Historical Research
3. To spread the awareness among modi script readers.
4. To provide the experts of modi script and language to Governmental and Non government sectors.

Introduction of Programme:

- The Department of History and Marathi of Loknete Dr. Balasaheb Vikhe Patil Pravara Rural Education Society's Arts, Science and Commerce College, Kolhar has organized the Modi lipi training programme from 24th April to 30th April at 11:00 am.
- Dr. S. N. Shingote, Principal was the President for the inaugural function.
- Hon'ble Mahesh Suresh Joshi, a Modi script expert from Pune was present the chief Guest for the programme.

DETAILS OF THE PROGRAMME:

Loknete Dr. Balasaheb Vikhe Patil (Padma Bhushan Awardee) Pravara Rural Education Society's Arts, Science and Commerce College, Kolhar Department of History and Department of Marathi and Vasundhara Bhasha Modi Script Conservation and Research Center, Pune jointly organized Modi Script Preliminary Training School.

Modi script is required for reading history. Similarly, it is important to be able to read the Modi script for research history. Today, the number of good Modi readers is very low. Modi Script Preliminary Training Workshop was organized in the college so that the students could get employment opportunities if they were made aware of the Modi script which preserves the historical heritage. Modi script initial training workshop was conducted from 24/4/2022 to 30/4/2022 over a period of seven days. Hon'ble Mahesh Suresh Joshi, a Modi script expert from Pune was present as the chief guide for imparting training in Modi script.

The inauguration ceremony was held on the first day of the Modi script training class. Dr. Jayashree Singer, Campus Director of the College was present as the Chief Guest. The President of the program was Dr. Sopanrao Shingote, Principal of the College. In her introductory speech Head of department, History Prof. Labade A.B explained the benefits of learning Modi script to history students. She also said that Modi script is important for preserving and conserving historical heritage. The teaching staff and students from TYBA class were present on the occasion.

Mr. Mahesh Joshi, Chief Guide, Vasundhara Bhasha Modi lipi Research and Promotion Center, Pune talk about the modern times, modi script is essential for employment and in view of the fact that Modi script is becoming obsolete today, it is important to preserve it.

Dr. Sopanrao Shingote, who presided over the program, said that in order to understand history through Modi script, everyone needs to learn Modi script.

Field Visit: Date- 13/01/2022

Krushvi Vidnyan Kendra Babhaleshwar

Geography is the description of Earth. It studies the organic and inorganic components of the Earth. Only by reading books, the knowledge of geography is not made perfect. So it is necessary to observe geographical components on earth. This is the reason why various places should be visited. Accordingly, Savitribai Phule Pune University Pune has included the educational tour in the syllabus of SYBA and TYBA Geography special students.

On 13/01/2022 the department of geography has organized educational tour to Krushvi Vidnyan Kendra Babhaleshwar (KVK). 21 students and 02 Teachers started from Arts, Science and Commerce College Kolhar at 10:00am and reached KVK at 10:30am. The head and senior scientist Dr. Nalkar communicated with students. He give them information about the work done in KVK. It included Farmers Facility Center, Weather Station, Nursery, Algae creation programme. He has given answers to the queries of students.

The Indian Council of Agricultural Research (ICAR) New Delhi after appreciating the work carried out by PIRENS sanctioned Krishi Vigyan Kendra (KVK) in the year 1992. This has helped PIRENS to intervene more intensively in the field of agriculture. PIRENS is giving a very strong support to KVK for integrated efforts to work intensively to perform better for the upliftment of rural people particularly the farming community and the unemployed rural youth.

Not only the NGO, but the sister concerns of PIRENS i.e. all the institutions of the Pravara Group are also giving strong moral and physical support to the KVs so that the KVK can provide better services for the

farming community, rural population particularly women and rural youths.

KVK plays important role in rural farmers and arrange different programmes at this center like;

1. Information and Communication Technology:-

KVK has focused on use of ICT in Agriculture from the year 1999 for which different ICT tools have been tested and adopted. Computer, Internet, Mobile, Community Radio as well as Print and Digital Media are different ICT tools used by the KVK to enhance the agriculture technology transfer.

2. Community Radio Station (CRS) & Information and Broadcasting Center:-

90.8 MHz FM KVK PRAVARA Community Radio started the programme broadcasting on 2nd October, 2009 with the mission of integrated rural development by providing the information through radio and develop the relation with the soul of the soil

3. Group Dynamics for Technology Assessment, Refinement and Dissemination:-

KVK has initiated the concept of group approach during the year 1996 for technology assessment, refinement and dissemination. KVK has established Innovative Farmers Club (Prayog Pariwar) at KVK level and Farmers Club and SHGs at village level.

4. Applied Biotechnology in Agriculture:-

KVK has given focus to reduce the cost of production besides natural resource conservation through LEISA technology. Therefore, separate programme is implemented based on use of applied biotechnology in agriculture. KVK has implemented several interventions in Biotechnology

Most of the on campus trainings were conducted for imparting the skills through practical training in the instructional units of the KVK. Improving productivity and self-employment generation are the basic objective behind the on campus skill oriented training programmes. Off campus trainings are conducted in the villages particularly on the farmer's field where the method demonstration as well as technological output shown to the trainees. The field of the innovative farmers are the venue to conduct off campus training programmes. Total 885 training programmes were conducted to practicing farmers in the villages. After training programmes, necessary inputs, services and consultancies were made available so that the technology adoption could be improved.

Dr. Dalimbe. S. N. Head Department of Geography demonstrated how to take readings of Rain gauge, Thermometer, Wind vane, Barometer, and how to send it to the farmers. The students have got information about Suvidha Kendra, Soil Testing, and Nursery. At 05:30pm the students and teachers reached the college.

A Field Visit to "VERMICOMPOSTING UNIT"

Introduction:

A field visit was organised by **Department of Zoology, Arts, Science and Commerce College, Kolhar** in collaboration with **Anand Agri Biotech, Durgapur Tal- Rahata, Dist- Ahmednagar** for the students. The activity was organized on **11th April, 2022** under the MoU signed between **Department of Zoology** and **Anand Agri Biotech, Durgapur** dated 22/02/2021.

Vermicompost is stable, fine granular organic manure, which enriches soil quality by improving its physicochemical and biological properties. It is highly useful in raising seedlings and for crop production. Vermicompost is becoming popular as a major component of organic farming system. Using Vermicompost can fulfil the requirements for organically grown products. Vermicompost is known to be the world's best fertilizer. Vermicomposting is a method of preparing enriched compost with the use of earthworms. It is one of the easiest methods to recycle agricultural wastes and to produce quality compost. Earthworms consume biomass and excrete it in digested form called worm casts. Worm casts are popularly called as Black gold. The casts are rich in nutrients, growth promoting substances, and beneficial soil micro flora and having properties of inhibiting pathogenic microbes.

Objectives:

- To create awareness among students about benefits of organic farming.
- To explore propagation of vermicompost among students for better yield of Crop.
- To develop training, skill & team work spirit among students.
- To promote the students to make their own unit.

Details of the Visit:

We the staff members along with students of vermicomposting course, reached the vermicomposting unit situated at Durgapur at 2.30 pm. The unit was established in 2015-16 and successfully run by the owner **Mr. Prashat L. Pulate**. The details of the vermitechology were discussed with him. The faculty members also guided the students. The students observed various stages of development from cocoon to young and adult earthworms.

Students were trained in handling the equipments and earthworms. The students studied the different stages in the life-cycle of earthworm. They observed the different methods of bed preparation, inoculation and separation of culture. The trainer Mr. Prashant L. Pulate explained different stages and methods of vermicomposting in details. He started the session with interesting information about vermiculture. He explained the production technology with materials used, process of preparation and harvesting of the compost.

He focused on the fact that vermicompost has been emerging as an important source in supplementing and substituting chemical fertilizers in agriculture. Vermicompost, also known as 'farmer's friend' is used for general crops and plantation crops. It is a valuable input for sustainable agriculture and wasteland development. It is a growth promoter and helpful in providing hormones required for plant growth. There is a lot of demand for vermicompost among farmers as its use increases quality of agricultural products and its price is also cheaper. It is also used widely in pot culture and in home gardens. In addition, many government departments including agriculture, forest and horticulture buy it in bulk. Its demand has decreased over the years. Government agencies and NGOs are popularizing organic agriculture using vermicompost by organizing awareness campaigns and film show in rural and urban areas.

Students interacted with the trainer and farm-workers to know about the sericulture. They asked various questions arising in their minds. The students acquired the knowledge about species of earthworms, procurement of culture, their storage, harvesting and use of vermicompost. As many of the students are belonging to the farmers' families they feel it as a great experience. Many of them asked about the economics of the vermiculture also. It was a good interaction session where the students clarified their doubts & some could answer his questions. Mr. Prashant Pulate was delighted with the students' response.

- i. CPBFI shall commence from December 2019. The said Programme will be of about 8-week duration and will involve class room teaching of about 120 hours.
- ii. The PARTNER INSTITUTE has agreed to mobilize, on best effort basis, at least 40 students in first academic year and at least 80 students from second academic year onwards. The PARTNER INSTITUTE shall decide the batch schedule and timings and inform the schedule to FINSERV at least 45 days before commencement of the batch.
- iii. FINSERV shall arrange to make the faculty available as per the schedule informed by the PARTNER INSTITUTE.
- iv. Detailed schedule of the lectures and practical shall be given in advance to students before commencement of CPBFI.

8. Place of teaching:

- i. The class room teaching and practical shall be conducted at Arts, Science and Commerce College, Kolhar by the CPBFI Official Training Partner, for up to four hours a day on such days, dates and at such timings as may be mutually decided between the parties

9. Eligibility for CPBFI:

- i. Any student who is studying in the final year of Graduation Programme or pursuing any post-graduation programme shall be eligible to apply for admission to CPBFI.
- ii. Additionally, any fresh graduate i.e. a graduate with less than 2 years of work experience or no work experience, shall also be eligible to apply for admission to CPBFI.
- iii. Only candidates who have scored 50% or more marks in their final year graduation examination shall be eligible. In case of final year students, the marks scored by them in the second-year examination shall be considered to decide their eligibility.
- iv. Only candidates who are less than 27 years old, on the date of application, are eligible to apply for admission to CPBFI.
- v. The PARTNER INSTITUTE shall select the final list of candidates for admission based on the criteria mutually agreed upon by the PARTNER INSTITUTE and FINSERV from time to time.

10. Discipline and right to expel:

- i. The students of CPBFI shall be subject to rules of discipline/code of conduct of the PARTNER INSTITUTE during course period.
- ii. If the concerned CPBFI Official Training Partner observes a breach of code of conduct by any student, it shall immediately report the same to the CPBFI Coordinator for necessary action.
- iii. If any participant commits breach of code of conduct of the PARTNER INSTITUTE, the faculty shall have full authority to expel such student for the remaining duration of CPBFI.

11. Faculty:

- i. FINSERV shall be solely responsible for arranging, through a CPBFI Official Training Partner, faculty, with requisite industry and teaching experience, and conducting CPBFI efficiently and effectively. The PARTNER INSTITUTE shall not be responsible for making any payments to the faculty of the CPBFI Official Training Partner.
- ii. Some of the lectures of CPBFI may be conducted by the experts from FINSERV as per the understanding between the parties. However, the PARTNER INSTITUTE shall not be liable to pay any amounts to FINSERV towards the said lectures and no amounts shall be deducted from the amounts payable to the PARTNER INSTITUTE.

12. Certification

The certificates shall be printed by FINSERV and shall carry the logos of FINSERV, the PARTNER INSTITUTE and the concerned CPBFI Training Partner

13. Further Agreements

The parties agree that, they may mutually discuss and enter into further agreements, if needed.

14. Confidentiality

- i. The Parties agree to maintain strict secrecy and confidentiality regarding any and all Confidential Information exchanged or to be exchanged between them in relation to this MOU.
- ii. The PARTNER INSTITUTE agrees that all the course material provided by FINSERV or the CPBFI Official Training Partner, including but not limited to CPBFI structure, curriculum, lesson plans and evaluation methods, shall be deemed to be Confidential Information.
- iii. The PARTNER INSTITUTE agrees that any of FINSERV's technical or business or other information including information given for development of any case studies / development of any program modules / contents, made available by FINSERV or its personnel to the PARTNER INSTITUTE shall be deemed to be Confidential Information.
- iv. The PARTNER INSTITUTE agrees to restrict access and disclosure of Confidential Information to such of their employees, agents, vendors, and contractors strictly on a "need to know" basis, to maintain confidentiality of the Information disclosed to it in accordance with this clause.
- v. Information and material disclosed and provided by each party to the other party in pursuance of or in connection with performance of its obligation under this MOU shall, at all times, remain the sole and exclusive property of the disclosing Party.

15. Intimation about cancellation/postponement of CPBFI

- i. If due to any cogent reasons, it appears to the PARTNER INSTITUTE that it is unable to arrange any batch as per schedule, the PARTNER INSTITUTE shall intimate about its inability to FINSERV at least 30 days in advance and the parties shall decide further schedule of CPBFI by mutual consent.
- ii. However, if such postponement or cancellation is necessitated due to any last minute, unforeseen and unavoidable circumstances like Act of God, civil commotion, strike, bandh, disruption of traffic, epidemic, war, aggression, change in Government Policy or any other similar circumstances, the PARTNER INSTITUTE shall intimate the change in schedule as early as possible after such circumstances as stated above have arisen. In such circumstances, the PARTNER INSTITUTE shall not be held liable for payment towards any loss or damages caused to FINSERV due to delay in its schedule.
- iii. If for any reason, FINSERV, decides to discontinue support for CPBFI, it shall give a written notice to the PARTNER INSTITUTE, 30 days in advance. Such notice shall not impact any batch which is already in progress on the date of notice and the terms of this MOU shall continue to apply to the running batches.

16. Amendment/Termination:

- i. Any amendment to the terms of this MOU can only be made by mutual consent of the parties
- ii. This MOU may be terminated by either party, for breach of terms and conditions of the present MOU or otherwise, by a written notice of at least one (1) month in advance. Such notice of termination shall not interfere with the batches underway at the relevant time. Such batches shall be allowed to continue until their conclusion.
- iii. Both the parties agree that Finserv shall have the right of terminating this MOU without any notice to the PARTNER INSTITUTE, if the PARTNER INSTITUTE charges a fee exceeding the amount prescribed under Clause 6(i) of this MOU. In such event, the batches underway at the relevant time, may also be terminated by FINSERV, unless the PARTNER INSTITUTE refunds the excess fee charged to every student of the batch.

17. Applicable Law and Dispute Settlement:

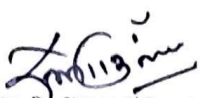

- i. This MOU shall be governed by the Laws of India.
- ii. Any dispute arising between the parties in connection with or arising out of the performance of mutual obligations under this MOU shall be resolved by mutual discussion and consultation. If the dispute remained unresolved even after 30 days, then the dispute shall be referred to Dr. Sopan Shingote, Principal, Arts, Science and Commerce College, Kolhar and Mr. V. Rajagopalan, President (Legal and Taxation), Bajaj Finserv Limited. The decision of Dr. Sopan Shingote and Mr. Rajagopalan shall be final and binding on both parties.

18. Originals:

This MOU is executed in counterparts, each of which shall be deemed to be original and retained by each of the Parties but together they shall constitute one and the same MOU.

IN WITNESS WHEREOF, the Parties hereto have put their hands the day, month and the year first hereinabove mentioned.
