

Institutional Best Practices

1. Domestic Entrepreneurship Skill Development

Introduction:

In the developing economy, it is important to be job provider than job seeker. The 'Make in India' scenario requires a healthy interaction between industries and educational institutions to mould potential of students into innovation and creativity. Keeping this in mind the college focuses on the development of entrepreneurial skills among the students. Hence, they can set up a small scale or domestic Entrepreneurship and to make them economically independent.

Goals:

1. To develop entrepreneurial development skills and awareness among the students.
2. To organize various Entrepreneurship development activities for students.

The Context:

Now a day, the rural youth is facing the problem of unemployment. The traditional education, curriculum and lack of confidence, the rural students are lag behind from the urban students. Therefore, the commerce department has taken initiative towards development of Entrepreneurship skills and awareness among the college students hence they can set up small scale as well as domestic businesses.

The Practice:

Apart from the curriculum the commerce department provides and motivates the college students towards entrepreneurial skill development through various activities. The department provides a platform to gain experience and sharpen their skills to develop domestic entrepreneurial skills. To maximize their experience and develop their entrepreneurial skills the department conducts various activities.

1. Commerce educational tour
2. Career guidance program
3. Swayamsiddha yatra
4. Field visits

Evidence of success:

The students motivated from the above said program and setup small scale as well as domestic businesses by using their own talent. They are economically independent.

Following are the some success stories that have setup their businesses as per the availability of resources and requirement of local need.

The Department of Commerce and Startup & Innovation Cell of Arts, Science and Commerce College, Kolhar organized a visit to Swayamsiddha Yatra (Stalls of SHGs). The visit was arranged on 10th December 2022. 42 students with 05 staff members visited. The Janseva Foundation works tirelessly for the complete upliftment of rural women by building capacity, providing finance, and arranging for markets. Swayamsiddha means helping oneself. Janseva Foundation wants women to be enough self-sufficient that she can overcome her own problems.

This visit was organized for the commerce students, which will give them an insight into and feel for Retail Marketing. Students interact with the women and acquire the knowledge from production to marketing processes. Students also collect information regarding cost, volume, and profit. This visit sensitizes students to the practical challenges SHGs face in the business world.

Educational Tour Report – 2022-23

Vinsura Winery and Sahyadri Farms Nashik

Commerce department, Arts Science & Commerce College, Kolhar organized educational tour to Shaydari Farms and Vinsura Winery, Nashik. Four staff members with forty six students visited on 6th April, 2023. Visit to Shaydari Farms was an enriching experience filled with valuable insights into the world of agriculture. The farm, located in a picturesque rural setting, showcased sustainable farming practices and modern agricultural techniques. Sahyadri is India's largest integrated platform for fruits and vegetables. Company via its unique inclusive partnership with farmers has built a strong capability over the years in areas of primary processing of F&V, semi-processed products like frozen & aseptic, processed products like fruit jams, tomato ketchup, fruit beverages and F&V waste processing under an integrated zero discharge processing facility. During the visit, we had the opportunity to interact with knowledgeable experts who shared their expertise on crop cultivation and the use of advanced machinery. We returned to our college with a renewed appreciation for the agricultural sector and a determination to contribute positively to its future.

Students also visited to Vinsura Winery, which was an unforgettable experience that provided us with valuable insights into the world of winemaking. Located amidst sprawling vineyards, Vinsura Wines showcased the artistry and science behind crafting exquisite wines. During our visit, we had the privilege of exploring the vineyards, learning about different grape varieties, and understanding the meticulous process of harvesting and crushing grapes.

The highlight of our tour was a guided wine tasting session, where we savored a diverse range of Vinsura wines, appreciating their distinct aromas, flavors, and characteristics. This sensory experience enhanced our understanding of wine appreciation and deepened our passion for the art of winemaking. The tour to Vinsura Wines was an enlightening journey that sparked our curiosity in the world of viticulture. We returned to our college inspired to explore the possibilities within the wine industry and with a newfound admiration for the culture and heritage associated with winemaking.

Visit to Sai Dwarkamai Agarbatti

Department of Commerce, Arts, Science and Commerce College, Kolhar organized a field visit to Sai Dwarkamai Agarbatti at Pravaranagar. Janseva Foundation works tirelessly for the complete upliftment of rural women by building capacity, providing finance and arranging for markets. Janseva Foundation wants women to be enough self-sufficient that she can overcome her own problems.

32 Students of Commerce faculty with 4 faculty members had visited on 24th May 2023 the Sai Dwarkamai Agarbatti at Pravaranagar. Students interact with the women and acquire the knowledge from production to marketing processes. This visit sensitizes the students to the practical challenges in the production & marketing in the business world.

Janseva foundation recycle the flowers offered to Shirdi Sai Baba into authentic handmade incense sticks. The students had observed the production of Agarbatti, Various types of perfumes, Ganpati idols with seeds etc. They also studied the process of packaging and making strategies.

Janseva foundation helped in uplifting many underprivileged women by making them independent entrepreneurs.

2. Eco-friendly Ganapati Festival and Immersion

Goals:

- To protect the environment
- Awareness about environment conservation among Villagers
- Express our great gracefulness Lord Ganesh
- To reduce water pollution

The Context:

Ganapati festival is one of the most important festivals celebrated among the youth of Maharashtra. At present idols of Ganapati are made of by using Plaster of Paris, Cement, Plastic papers containing toxic chemicals. After ten days, these idols of Ganapati are immersed into the River and well water. These idols made of plaster of Paris and other non-dissolvable materials are very harmful for environment and increase the water pollution. The villagers use this polluted and chemically affected water for drinking purpose which are harmful for the health of people.

The Practice:

By considering the above context, the college has initiated a movement against the wrong tradition of Making of Ganapati idols and its immersion into the usable water sources. College staff and NSS volunteers actively participate in this work. We make groups of students along with a faculty for the purpose. On the first day of Ganapati Festival, we appeal to buy the Ganapati Idol made of clay instead of POP. We also create awareness among people during cultural festival organized through 'EK GAON EK GANPATI'. On the day of immersion of Ganapati, these groups of students and faculty go to the bank of Pravara River, where people gather to immerse the idols. We appeal and request them not to immerse the idols made of Plaster of Paris and other harmful materials. These groups collect the idols made of Plaster of Paris and righteously put in the ground. We also collect the idols immersed into the water. The used flowers and leaves are collected in a basket and used for making bio fertilizers for the trees in the campus.

Evidence of Success:

- People started using the idol made of dissolvable clay.
- Besides, it is matter of religious belief; people allow to handover the idols to our groups instead of immersing into the water.
- It helped to reduce the water pollution during festival period.
- We succeeded to create environment awareness among the villagers

Problems Encountered and Resources Required:

- Most of the people refuse to handover the idols considering as it is against religion.
- People prefer to buy idols made of plaster of Paris, since they are cheaper than clay idols.
