PROGRAMME DISCRIPTION: Expert Lecture on 'Opportunities in job and business'

The current era is considered to be the era of competition. So, students can face competitive exams to enter any field. The college has established a 'Competitive Examination Guidance Center' to prepare the students for this. In the year 2017-18, guest lectures and guidance from expert lecturers were organized in the college to prepare the students for the competitive examination. " Opportunities in job and business " was organized in association with Savitribai Phule Pune University, Pune and Student Welfare Board and College of Arts, Science and Commerce, Kolhar. Hon'ble Avinash Shirasath, while giving guidance on job and business, said that Business is always better than a job. Even an underprivileged person after getting some experience and knowledge can start a small business-like making beauty product, making food, sewing, dyeing, poultry farming. It is possible for a A less educated youth to start a business in that field by taking technical education. Today, the fields of art, sports, music, acting, storytelling, etc. are not just hobbies but they are coming forward as business fields of financial gain with innate talent and creativity in this business. They have to put up with the test of amateur class with tireless hard work. They have to endure criticism with a smile on occasion while sitting on the pinnacle of success. In that short period of time, they have to accumulate capital for the next life. Advocacy of medical profession for the highly intelligent, the industry is

nothing less in today's computer age. One has to clear the competitive exam in the field and prove their worth. For this workshop Hon'ble Principal Dr.S.R.Walunj guided the students in the presidential speech.
